MEMORANDUM FOR: Legislative Division, Office of Congressional Affairs

ATTENTION:

FROM:

SUBJECT: Interim Response to Congressional Committees'  
26 May 1988 letter RE: CISPES

1. Attached are tabs that respond to OCA's memorandum of 16 June 1988 (OCA -2020-88) pertaining to FBI documents on CISPES. We are continuing to search files for answers to the questions raised in the 26 May 1988 letter. Para (2) has been addressed in a separate memorandum. Para (3) is covered by the attachments to this memorandum. We have attempted to recover the appropriate records required for para (5), a), b), d), and have started inquiries for para (5) c).

Tab A lists those FBI documents that originated in Agency sources or files. These documents may be passed to the SSCI.

Tab B lists those FBI documents which do not contain Agency references or for which FBI references are inadequate for Agency action. These documents should not be released to the SSCI pending a further review of FBI files to discern proper Agency references.

Tab C lists FBI communications to the Agency which would not appear to require Agency approval before release to the SSCI.
